The dove of peace appears to be again circling about our heads.

"Cover up each cough and sneeze. If you don't you'll spread disease."

One fears the Greeks when they bring gifts and the Germans when they offer peace.

Get all the Liberty Bonds you can. When the interest falls due you can use it to buy sugar.

Mr. Robin has carried his cheerful red waistcoat and pretty brown coat south for the winter.

If you want the best military wrist watch made, get a Gruen of Morrow and McRoberts. 10-31.

Darning needles are now out of the market, and the club women who do not like to mend stockings will be pained.

New York sets the pace for the whole country. But we trust we shall not all have to rock with explosions.

Re-cleaned seed wheat and seed rye, and barley seed.

Hudson, Hughes and Farnau.

If you have a chill and your nose turns blue, Go home and take aspirin for the flu!

Judging by published extracts from Boche newspapers the motto of the German press might well be, "Hope for the hopeless."

If the price of dry goods continues to soar the cultivation of fig trees will have to be encouraged by the board of national defense.

LOST—Oct. 9th, open face seven Jewel Elgin watch, Black ribbon fob with Dodge car advertisement. Reward if returned to this office.

Our ideas of woman as exclusively a sewing and dishwashing being, fade away when we see her as a farmer and as an auto mechanic.

You will inevitably regret many of your actions in this life, but you will never regret subscribing to your limit for the Fourth Liberty Loan.

The people in France just now are not only divided into Allies and Germans, but into optimists and pessimists. Which is which? One guesses.

And the Senate has turned Lovely Woman down! Let it beware! It is quite on the cards that Lovely Woman may turn the Senate down hard some day.

The citizen who sports two patches where but one grew before, deserves honorable mention. If some of our subscribers do not come across we will have to mention our own name.

Dead leaves are among the best of fertilizers, and there is at present a scarcity of fertilizing material in this country, coupled with a great demand for it. Such was the cry of the conservationists.

"He who fights and runs away May live to fight another day." German militarism is now "fighting and running away", and in any peace settlement we must be careful that it is deprived of all power to "fight another day".

Cremo Dairy Feed will make your cow give more milk.

Hudson, Hughes and Farnau.

If the people of this country do not take care the epidemic will become so widespread throughout the United States that soon we shall hear the disease called "American" influenza.

Ordinary needles also are scarce and growing scarcer. High school girls (who are all past mistresses in the art of pinning up rents) will find themselves welcomed in the family circle.

From the German point of view, retreating when attacked by an overwhelming force is an excellent sauce for the Allied goose. But when the tables are turned, it is considered a very unsatisfactory sauce for the German gander.

And now they tell us that Spanish influenza, despite its name, comes straight from the Orient. A name has not much significance. For instance, we have always known that German Kultur, despite its name, came direct from the devil.

Even if the Kaiser were to abdicate we should have to face some other Hohenzollern, some other savage just as bad only younger. We cannot trust a Coburg or a Zähringer any more than we can a Hohenzollern. Why then relax until the savage is licked and shackled?

It is reported that on account of their antagonism to the draft the Goshute Indians have left their reservations in Utah and gone upon the warpath for the third time in eighteen months. The Home Guards will probably receive orders to "Go shoot 'em".

One of the present important questions: On the return of peace shall we be reconstructed by a committee appointed by Congress or a commissioner appointed by the President? There seems to be no doubt in the general minds that we must all be reconstructed by some agency.

One way of looking at the military situation is to consider the losses in guns and ammunition the Germans have sustained besides the losses in man power. Whence are to come other guns and more ammunition? The Allies have taken the coal fields away from the barbarian. The loss of the iron fields is not a remote possibility.

It is very important that every person who becomes sick with influenza should go home at once and go to bed. This will help keep away dangerous complications and will, at the same time, keep the patient from scattering the disease far and wide. It is highly desirable that no one be allowed to sleep in the same room with the patient.

Issuing instructions to all chairmen Kentucky State Council of Defense of County Councils of Defense, the recently inaugurated on a definite basis its campaign for early and sensible Christmas shopping. The county chairmen are urged to carry forward educational campaigns in their districts, affecting the general public as well as merchants.

It is especially important to beware of the person who coughs or sneezes without covering his mouth and nose. It also follows that one should keep out of crowds and stuffy places as much as possible, keep homes, offices and workshops well aired, spend some time out of doors each day, walk to work if at all practicable—in short, make every possible effort to breathe as much pure air as possible.

By the way, when the Chicago Board of Trade was in session the other day a dove flew in through the window and lighted upon a desk. Board of Trade men are great believers in signs and omens, and many of them immediately based their operations for the day upon the expectation of a falling market. When they ruefully looked at their bank balances later they decided that the omen of the dove was simply that their money would take wings.

Shakespeare used to tip the battle, Byron loved the flowing bowl, Goldsmith used to wet his throat, Tom Hood used to flood his soul. Shelley wasn't an abstainer, Bobbie Burns was often tight, I hope would send a large container To the corner every night. Edgar Poe was oft convivial; He imagined many a crime From some incident quite trivial, And then set it down in rhyme. If each great and bygone volunteer Got his pep from frequent rye, What d'ye expect from a minor collyumbist With the country going dry?

## LAST AND FINAL NOTICE.

This is to notify every tax payer of the city of Lancaster, that on November 1st, the penalty of six per cent goes on all unpaid taxes. Pay now and you will save your self the extra cost.

City Tax Collector.

## GOOD CROWD AT SALE.

The sale of the Dr. N. Mays home place attracted quite a crowd on last Saturday. Mr. J. S. Haselden, who conducted the sale tells us the bidding was quite spirited and a number were making bids. Mr. U. M. Burgess the present occupant was the purchaser, at the highest amount bid, \$3776.00.

## ORAND.

Friends here were apprised Tuesday of the sudden death at his home in Waco, Texas, of Mr. P. C. Orand. Mr. Orand will be remembered here as having married Miss Lida Jennings daughter of the late Mr. and Mrs. H. C. Jennings. During the life of his little daughter, Mary Lida Orand, (she died in childhood), who lived with her grandparents, Mr. Orand was an annual visitor to Lancaster at the home of Mr. Jennings, making an agreeable impression as an affable Southern gentleman. Being bereft of wife and child, Mr. Orand did not make a second marriage, and made his home at the time of his death with the daughter and sons of the late Mr. John M. Orand.

## TOYLESS CHRISTMAS

The Kentucky Council of National Defense' campaign to educate the public in the matter of Christmas buying this year took on a State-wide aspect when instructions for extending the movement were issued to the 120 chairmen of the County Councils of Defense throughout Kentucky. The instructions deal with the problem as concerning the public and also from the standpoint of cooperation with the merchants.

The outstanding feature of the campaign is that it is intended specifically to educate the custom of giving toys to children. Useful presents for all persons is to be the aim of the movement. Early buying and the necessity of increasing sales and early sending, designed to eliminate delivery forces, is urged in view of the wartime scarcity of labor for purposes which are not strictly war-essential. Shop in October and November, is the request made of the public.

The merchants are asked to assist in educating the consuming public to buy useful articles and to refrain from increasing working force and working hours during the Christmas buying season.

## 120 ACRE FARM AT AUCTION.

In this issue will be found the advertisement of the Tom Moore or Kelly Hogg farm at auction, on next Thursday, Oct. 24th. This farm is one of the best known farms in Garrard County lying just one mile from Camp Dick Robinson, on the Lexington pike, in one of the best communities in the County, close to schools and churches and should attract a goodly number of buyers.

## CHICKEN BROTH FOR SICK SOLDIERS.

An appeal has been made through the Fire Underwriters of Kentucky that dressed chickens be sent to the sick boys at Camp Taylor, and Mr. E. C. Gaines has had many responses from this county and a number of dressed fowls have been sent in. Anyone wishing to contribute to this worthy cause are asked to leave such contributions at the Puritan, together with ten cents which pays for the mailing and Mr. Gaines will see that it is forwarded promptly.

## KIPLING'S DREAM TO BE REALIZED.

Kipling's dream of the "Flight of the Night Mail", great planes racing from coast to coast and from the Canadian border to the Gulf of Mexico, heedless of storms, guided at night by searchlights and in the day by giant landing places, will be a reality within three years, Capt. B. B. Lipsner, in charge of the Government's aerial mail service, predicted. A sunrise to sunset air mail service between New York and San Francisco, using the airplane equipment of the army now in service in France or being built, with Chicago as the hub of the system is being projected now, he declares.

## NO PEACE WITH THE BEAST AUTOCRACY MUST GO, SAYS WILSON.

The text of President Wilson's reply to Germany's acceptance of the peace propositions laid down by him is as follows:

"The unqualified acceptance" by the present German government and by a large majority of the Reichstag of the terms laid down by the President of the United States of America in his address to the Congress of the United States on the 8th of January, 1918, and in his subsequent addresses, justifies the President in making a frank and direct statement of his decision with regard to the communications of the German government of the 8th and 12th of October, 1918."

He feels confident that he can safely assume that this will also be the judgment and decision of the Allied Governments. Cities and villages, if not destroyed, are being stripped of all they contain not only, but often of their very inhabitants.

"The President feels that it is also his duty to add that neither the Government of the United States, nor he is quite sure, the Governments with which the United States is associated as a belligerent will consent to consider an armistice so long as the armed forces of Germany continue the illegal and inhuman practices which they still persist in."

"The nations associated against Germany can not be expected to agree to a cessation of arms while acts of inhumanity, spoliation and desolation are being continued which they justly look upon with horror and with burning hearts."

"It is necessary, also, in order that there may be no possibility of misunderstanding, that the President should very solemnly call the attention of the government of Germany to the language and plain intent of one of the terms of peace which the German government has now accepted. It is contained in the address of the President delivered at Mount Vernon on the 4th of July last.

"It must be clearly understood that the process of evacuation and the conditions of an armistice are matters which must be left to the judgment and advice of the military advisers of the United States and the Allied Governments, and the President feels it his duty to say that no arrangement can be accepted by the Government of the United States which does not provide absolutely satisfactory safeguards and guarantees of the maintenance of the present military supremacy of the armies of the United States and the Allies in the field."

"At the very time that the German government of the United States with proposals of peace, its submarines are engaged in sinking passenger ships at sea and not the ships alone but the very boats in which their passengers and crews seek to make their way to safety; and in their present enforced withdrawal from Flanders and France the German armies are pursuing a course of wanton destruction which has always been regarded as in direct violation of the rules and practices of civilized warfare."

"It is as follows: 'The destruction of every arbitrary power anywhere that can separately, secretly and of its single choice disturb the peace of the world; or, if it can not be presently destroyed, at least its reduction to impotency.'

"The power which has hitherto controlled the German nation is of the sort here described. It is within the choice of the German nation to alter it. The President's words just quoted naturally constitute a condition precedent to peace, if peace is to come by the action of the German people themselves."

"The President feels bound to say that the whole process of peace will, in his judgment depend upon the definiteness and the satisfactory character of the guarantees which can be given in this fundamental matter. It is indispensable that the governments associated against Germany should know beyond a peradventure with whom they are dealing."

"The President will make a separate reply to the Royal and Imperial government of Austria-Hungary."

"Accept, sir, the renewed assurance of my high consideration."

"ROBERT LANSING"

## NOTICE

As executor of Mrs. Susan Fisher, deceased, I hereby call for all claims against said estate, to be in my hands for settlement, by October 30, 1918. Any one knowing themselves indebted to her estate will please see me at once. Fisher Herring, Executor.

**PIPELESS CALORIC FURNACE**  
THE ORIGINAL PATENTED PIPELESS FURNACE

This same circulation of the air is taking place through your entire house. The warm air rises to the ceilings and through doors, transoms, stairways and passageways, travels to the further-most corners of every room on each floor. Every time the warm air enters the room it replaces cold air which is sent down to the Caloric to be heated and made pure. This is so simple that it sounds like mere theory, but 50,000 Caloric-heated homes were kept warm ALL OVER last winter, when old style furnaces and stoves caused parlors and spare rooms to be shut off, to keep the rest of the house warm. We KNOW that the Caloric makes good. It has been used by enthusiastic owners for years, heating homes thru-out, and saving many dollars on fuel bills.

**MORE HEAT LESS FUEL MORE COMFORT LESS WORK**

Come in and let us show you what the Caloric Furnace is doing in thousands of other homes. We will study your heating problem and advise you whether or not you can profitably use a Caloric. Come in and talk to us about this remarkable method of heating.

### MULES IN DEMAND.

Many mules have changed hands in the county within the last week. Mr. Wiggins, of N. C., through Mr. W. B. Burton having shipped a car load of horses and mules from here this week.

Mr. J. B. Bourne sold them three nice ones for \$850 and a five year old horse for \$175. Wilson Rogers, of Paint Lick purchased in Stanford last Monday a team of Dr. Peyton for \$475 and a horse mule of Mr. Poynter for \$135. He also bought a dandy team of three year old mare mules of Scott Brothers, for which he paid \$515.00.

### RED CROSS LINEN SHOWER.

When the call went out over the county that linens were needed for the Hospitals in France, the Red Cross got busy and with the assistance of the Woman's Club, one of the most expensive boxes ever shipped, went from the local chapter here last Friday. Practically everyone in the county it seemed had donated something and those not having the necessary articles asked for, gave liberally of their means and as a result about \$125.00 in money was donated which will be used later toward furnishing another linen supply. Every store in Lancaster was divested of most all of its towels, sheetings, napkins and handkerchiefs. The total shipped was: sixty sheets, 200 bath towels, 230 hand towels, 180 napkins and 501 handkerchiefs.

The last shipment of finished articles were sent Oct. 7th, which brings the number of dresses shipped to 75 and the number of socks, 270 pairs.

The next quota will be 35 suits of pajamas, and 212 girls chemises.

### FOOT BALL.

The Stanford football team came over last Friday and defeated our team to the tune of 6 to 4. It is said that Lancaster lost the game on a fumble. We hope our boys will have better luck on the return game which will be played at Stanford later.

The Red Cross shower for hospitals in France, again demonstrated the generosity of Garrard.

The Jury Money for all juriesmen serving on the August term of Court is now ready. J. J. Walker, Jr. Trustee Jury Fund.

### ELMORE.

Mr. and Mrs. Harry Elmore, who are living temporarily in Nashville, have the sympathy of their friends in Lancaster, in the loss of their baby boy, James Russell, who died at the Tulane Hotel in that city last Sunday afternoon, after an illness of only a few days, brought on by an acute attack of influenza. The little fellow was just two and a half years old and was the pride of his parents as well as its grandparents. The remains were brought to Lancaster last Tuesday at eleven o'clock and after short services at the grave by Rev. Moorman, interment took place in the Lancaster cemetery.

### JOHN B. GABBARD

John B. Gabbard, son of Mr. and Mrs. W. R. Gabbard, who live near Cartersville, in this county, has given his life for liberty on the battle fields of France. This is the first Garrard county boy that has given his life on the battle fields.

John Gabbard was among the second contingent that was inducted into service in this county, on September the 21st, 1917, and entrained that day for Camp Taylor, where he remained for a few months and was transferred, and later embarked for foreign service. He was killed on September 12th, 1918, a little less than a year from the time he enlisted. He was a splendid young farmer and loved by his fond and devoted parents, who have the sympathy of the entire community, in the great sacrifice they have made in giving up their boy. Last Monday's casualty list gave his name as among those killed in action, although the department at Washington had already notified the family several days previous. John Gabbard was born December 5th, 1895, at Alcorn, Ky., so the records of the local board show.

#### MARKSBURY

Bad Pollard sold a weanling mule to Mr. John Ray for \$45.

Mrs. Joe Skinner was hostess to a number of her friends at dinner last Saturday.

Mr. and Mrs. C. F. Evans of Lexington were guests last week of the Misses Simpson.

Mrs. Icie Kemper who sustained injuries by a fall sometime ago, is slightly improved.

Mr. William Blanks has returned from Louisville, where he went to attend the funeral of his brother, Mr. Charlie Blanks.

Mr. Will Wood of Hubble moved into the vacant cottage of Mr. Chas. Blanks, and has taken charge of the Blacksmith shop at this place. The need of a blacksmith shop here has been felt a long time and the coming of Mr. Wood will be hailed with delight.

Monroe Floyd, generally known as "Uncle Men" a highly respected colored man died at his home last week, aged 78. He had an attack of vertigo and fell while at work in the field, from which he never recovered. He had many friends among both white and colored, who will regret to hear of his passing away.

#### COUGHS AND COLDS QUICKLY RELIEVED

Dr. King's New Discovery used since Grant was President Get a bottle today

It did it for your grandma, for your father. For fifty years this well-known cough and cold remedy has kept an evergrowing army of friends, young and old.

For half a century druggists everywhere have sold it. Put a bottle in your medicine cabinet. You may need it in a hurry. Sold by druggists everywhere.

#### Bowels Acting Properly?

They ought to, for constipation makes the body retain waste matters and impurities that undermine the health and play havoc with the entire system. Dr. King's New Life Pills are reliable and mild in action. All druggists.

## VOLUNTEER As PATRIOTS For GOVERNMENT WORK

Carpenters 60c, Laborers 35c per hour.

### Lodging Free

The Government at Washington has called upon the citizens of KENTUCKY at once to furnish the men to build--or lose from the State entirely--the wonderful Camp Henry Knox, at Stithon, designed to be the greatest Artillery Training Camp in the United States.

The credit and good name of the Commonwealth of KENTUCKY must be upheld. And the State MUST NOT lose this great plant, calling for an investment on the part of the United States Government of from \$15,000,000 to \$20,000,000.

Up to this time the work has lagged for want of men. It is now up to the men of Kentucky, to volunteer, or be forced to do so later on. There is no middle course.

## TEN THOUSAND WORKMEN MUST COME FORWARD!

#### CARPENTERS AND LABORERS

Wages are high and are fixed by the Government. Carpenters 60 cents an hour. Laborers 35 cents an hour. Carpenters and laborers work ten hours each day, receiving pay for eleven hours. Saturday afternoon and Sunday work (not compulsory) double pay for carpenters; time and a half for laborers.

Free sleeping quarters provided with new cots and blankets. Meals 30 cents each. Transportation free to laborers and charges are advanced to carpenters from any point in the state.

#### SANITARY CONDITIONS ARE OF THE BEST

Camp Knox was selected for a permanent site because it is located on the highest point of land on the Illinois Central between Louisville and New Orleans. Camp Knox has one of the best health records in the country.

#### PATRIOTIC WOMEN OF KENTUCKY

See to it that every able-bodied man in the State, not engaged in other War Industries; volunteers his services at high pay, to help get this great permanent Kentucky camp ready for the brave boys of this Commonwealth and other States, now billeted in tents at Camp Taylor and West Point, so they will not have to suffer the privations of General Washington and the Continental Army at Valley Forge.

If it is not your own son who must be housed at Camp Knox this winter, it is the boy of some other mother—all of them training to protect our Liberty in the great fight for Freedom.

Provided men do not volunteer for this well-paid and necessary patriotic work, it is the duty of every loyal Kentucky woman to report them to the nearest United States Employment Service, just as they would a Hun Spy or an Army Slacker.

Show them their Duty!

Make them Volunteer!

Take their Places!

#### CAMP KNOX MUST BE READY DECEMBER 1.

Before cold weather sets in, barracks at Camp Knox to shelter not less than 30,000 Army Boys, and stables for at least 15,000 animals MUST BE COMPLETED. This is imperative.

Full-blooded Kentucky co-operation can complete quarters for not less than 50,000 soldiers and 30,000 animals in that time, if all work together. It is a man-sized job, all right, even for Kentuckians, but it can be done, as Kentuckians never fail in what they undertake.

The fair name of the old Commonwealth—the Fourteenth State to be admitted in the Union—is at stake in the National Capital and before the country at large.

#### EMPLOYERS—NOTICE—IMPORTANT

If your work is non-essential, give up some of your men at once and advise them to go to Camp Knox. If the call for Volunteers is not heeded you may be required to shut down completely. We do not wish to do this by compulsion.

This is no time for shilly-shallying. We must have ACTION. The work is Vital. It is Imperative.

Be a Volunteer and Go at Once!

#### MEN, MEN AND MORE MEN TO SAVE KENTUCKY!

This is an EMERGENCY necessitating drastic action if the call for volunteers is not heeded.

When the order came from Washington telling what Kentucky had to do to save Camp Knox for the State, Federal Director Pratt Dale, of the United States Employment Service for Kentucky, immediately held a War Council of affiliated interests, composed of Major W. H. Radcliffe, Constructing Quartermaster at Stithon; John Griffiths and Son Company, builders of Camp Knox for the Government, and O. L. Taylor, District Organizer of Kentucky, United States Public Service Reserve; Edward W. Hines, State Chairman, State Council of Defence. Determined action was decided on. All government agencies will be invoked to secure the necessary men.

Let the word go out broadcast of Kentucky's need of men in this greatest of humanitarian war works—housing our soldiers.

Let it go out at once.

Preach it from the Pulpit.

Shout the need from the house tops.

Organize the Workers at once—and report them to your nearest United States Employment Service or to your County Chairman, United States Public Service Reserve.

#### IT CAN BE DONE WITH YOUR HELP.

Georgia furnished 5,000 men to save its pierie acid plant—raised them in two weeks. Kentucky can do even better.

Major Radcliffe says: "Every nail you drive, every brick you lay, every bit of real work done, will add to the growing load around the Kaiser's neck. The war won't wait!"

Men and Women of Kentucky—Do your duty for your Country and your Commonwealth and help us to Protect YOUR Boys.

## LABOR NEEDED TO SAVE CAMP KNOX FOR STATE

Emergency Causes Summary Notices From Authorities At Washington.

**DRAFT MAY COME IF VOLUNTEERS FAIL**

State-wide Calls Sent Out To Lend Aid For Speeding Up Work.

State wide calls have gone out to save Camp Henry Knox at Stithton for Kentucky. The authorities at Washington have served notice on Kentucky that if they cannot produce the necessary laborers to complete the work at Stithton before cold weather sets in the permanent artillery camp, representing an investment of probably \$20,000,000, will be withdrawn from the state entirely.

Immediately upon receipt of these notices the state officials got busy and are sending out calls to all individuals and business organizations, pointing out the emergency and frankly declaring that if Kentucky carpenters and laborers do not volunteer for the work, a forcible draft must be made effective at once on non-essential industries.

### ULTIMATUM ISSUED!

Work at Camp Knox has dragged for lack of men and winter time is now approaching with thousands of the soldiers still in tents at Camp Taylor and West Point. The ultimatum is that barracks to hold not less than 30,000 men and stables for 15,000 animals must be completed by December 1. It is the belief of the Kentucky authorities that even more is possible and that enough workmen can be secured to erect buildings that will accommodate possibly 50,000 men with stable accommodation for 30,000 animals. This is the present patriotic determination.

Pratt Dale, Federal Director of the United States Employment Service immediately issued a public notice, sent broadcast throughout Kentucky, telling just what the state was up against. He called a meeting of various interests, including John Griffiths and Son Company, builders of the Camp for the government, Major W. H. Radcliff, constructing quartermaster in charge, and organized an intensive campaign that is destined

to reach into every city and hamlet of Kentucky.

### AUTHORITY FOR DRAFT.

"Every man and every business organization", said Mr. Dale "must realize that this is an emergency that calls for immediate action. Under the authority given us from Washington if the men in sufficient numbers do not volunteer their services we must draft them from the non-essential industries. It is up to the employers of laborers throughout Kentucky immediately to displace men in their employment with women and recommend their employees to enter the service at Camp Knox". Major W. H. Radcliff, constructing quartermaster at Camp Knox, has also appealed to the people of Kentucky to volunteer for service. "Every nail you drive", says Major Radcliff in a ringing message to workmen, "every brick you lay, every bit of real work done, will add to the growing odds around the Kaiser's neck. The war won't wait".

### WOMEN APPEALED TO.

Women are asked to take a leading part in the campaign for volunteers to prepare the quarters for soldiers. "If it is not your own son who must be housed at Camp Knox this winter", the call reads, "it is the boy of some mother—all of them training to protect our liberty in the great fight for freedom. Provided the men do not volunteer for this well paid and necessary patriotic work, it is the duty of every loyal Kentucky woman to report them to the nearest United States Employment Service just as they would a Hun spy or an army slacker."

It is to the women of the state to show the men that it is their duty to volunteer for work at Camp Knox and to take their places during their absence.

All of the organizations interested in the construction of Camp Knox have agreed upon C. C. Quinlan as director of emergency employment and the details of organizing the State and producing workmen are in his hands.

And the Hobo Left. "Semper fidelis," announced the hobo. "Dat's me." "Sic semper," chirped the head of the house, and the bulldog promptly responded.—Louisville Courier-Journal.

### ON TO BERLIN.

Again the President has spoken with the voice of America and for the civilized nations of the earth. Again, and for the last time, he has told Germany that peace cannot be discussed while a Hohenzollern wears the imperial crown and while the satanic practices of the Hun proceed at sea and in the field.

When the torpedo, the torch and the bayonet are no longer wielded against women and children and when the Kaiser and his bloody house are visited with punishment or oblivion, then only can the allied Generals in the field be authorized to consider an armistice with the beaten armies of the enemy. Nor will that armistice surrender one point of military advantage or forego one safeguard—in brief, as the Courier-Journal said two days ago, the German troops must stack their arms on the battle line.

It means more than unconditional surrender by Germany. It opens the way to much more than military triumph surpassing any ever enjoyed by Caesar or Napoleon. For it prepares the greatest liberation of the soul of man that has come since Christ trod the streets of Jerusalem. The brutal, arrogant, godless power that has turned the simple German people

ple into a race of demons must go down before the quiet phrases of the President as card-houses topple when breathed upon. Within their own proper boundaries and under just laws, the misguided race that made a god of a half-crazed and blood-thirsty monarch, will be enabled to live as all human beings have a right to live. And, more than that, the human beings that people the rest of the earth may walk the paths of peace and progress unmolested and unafraid.

The anxious Senate, or some of its members, feared that the President had laid aside the trumpet for the dulcimer. To Mr. Lodge, of Massachusetts, the President had reopened "a diplomatic discussion" that would vitiate the spirit of the war. There is nothing of "discussion" in this great document. Germany has unqualifiedly accepted the stated conditions, the President says, and closes debate on that score. The surprised Power finds itself tightly bound to a programme it might desire later to evade or avoid. And there is enough of the promise of fire and sword and reprisal, until surrender is enforced, to please even that implacable Colonel from whom Mr. Lodge has taken such a faulty cue.

The answer of the President is an ultimatum to a defeated power. Its terms are so clear that only two courses lie open which means present surrender, or resistance, which means ultimate destruction. No discussion is possible. The trap which the foolish feared, if there ever was a trap, snaps its futile jaws together upon nothing and will be heard of no more.

In the meantime the boys land in France, 250,000 of them a month. The drive goes on in Flanders, Artois and the Champagne. Pershing, Haig and Foch smash away, now at one point, now at another. Defeat is at hand, and peace, when it comes, will be the dictated peace of absolute surrender. Whether it is now or next year does not matter in the light of the fact that the new world has given to the old, in its darkest hour, a leader who is both warrior and priest.—Courier Journal.

### WILL CONTINUE TO FIGHT.

A wife whose husband is in active service recently presented him with a bouncing boy. She wrote and asked him when he could get leave, also when the war would be over. He replied:

"Dear Maggie: I don't know when I shall get leave or when the war will be over, but if the boy should be drafted before I get a furlough give him a parcel of socks to bring over to me."

## KHAKI COLUMN

The above is a splendid likeness of another Lancaster boy, Sam Herzon, son of Mr. and Mrs. Luther Herron, who has been in the service of the United States Army for a number of years, being now stationed in the Philippines Islands. He is anxious to be transferred to France and get in the thick of the fight with the other dough-boys from the states. His letter to his mother will be read with much interest.

"Fort Mills, P. I.  
Dear Mother and all:

I will answer your welcome letter which I received yesterday and sure was glad to hear from you and the rest. This leaves me fine and dandy and hope these few lines will find you the same. Well mother, I leave here September 15th for destination unknown, which is "Estados Unidos" and when I reach there I am trying to get a furlough and come home to see you, as it seems a century since I saw you and the rest.

Well, I just got the Central Record just now and I had to stop and read it, and Sterling's letter was in it. He is right, you should not worry about us, he is a splendid boy and deserves much credit. I have but two wishes, the first one is to see you and the second France. It seems as if all the people of Lancaster have forgotten me, but of course they are thinking of bigger things than I am. The boys in France are in more danger than we are here, but each one has a million others to protect him while he is protecting some other mother's son. Over here they call the men that came in the army at the point of the bayonet the better class, because they are. But I have another name for them, and I am glad that they are the better class, and I am the second class. I am so disgusted with this part of the world that it seems that September will never come. I will lose several dollars by coming back to the States, we lose our grade of rank and foreign service pay, but I had rather be in the good old U. S. A.

I will make this my last letter from the P. I. and that makes me happy. I will write you from Japan. Don't write me any more until I send you my address.

With Love to all,  
Sam."

The following letter to his father, Mr. Silas Mathews, from his son, Pvt. Jasper Mathews, will be read with interest by his many friends throughout the county, where he is well known.

"Somewhere in France."

Dear father:

I will write you a few lines to let you know I am well, and getting along all right, and hope you all are the same.

We have air raids nearly every night. When the Huns come over they drop a few bombs and we put a few shots at them and they are gone.

When you write me please tell me all the news and all the boys who are in camp. I will close for this time.

With love to all, Your son,

Hoping to hear from you all soon.

Private Jasper Mathews,  
Co. E, 112 Supply Train, American Expeditionary Forces, A. P. O. 763.

"Somewhere in France."

Co. M, 360 Infantry, A. E. F.  
Mr. Coy Price, Lancaster, Ky.

As it is Sunday and I have nothing else to do will write you a few lines. This leaves me well and getting along fine, and hope it finds you the same.

Have just had my breakfast, shaved and washed my feet last night for the first time in two weeks. My feet sure do feel good too. It wasn't because I had to sleep with my shoes on but safety first. There is quite a little amusement going on here. Every once in a while and sometimes twice in the same length of time, you sure would laugh to see us grab our gas masks and get under cover. It makes a person a little nervous at first but he soon gets used to it, so he don't pay much attention to it. The first few nights I could hardly sleep but now I can sleep any where. I think I could sleep with my gas mask on if it was necessary. I have not done anything but sleep and eat for the last week but don't think it will be so this week.

How is every body there around home, and how are the crops? I have not had a letter from any one for three weeks and I am getting anxious for one. I hope we will get some mail today. I wrote Misheal some time ago and told her to have the Lancaster paper sent to me, but I don't guess I have had time to get one yet. I will close, asking you to write soon.

Thos. K. Price.

The following interesting letter was written to Mr. W. C. Wynn, of Paint Lick, Ky, by his nephew, Capt. E. W. Huff, A. M. R. C. A. P. O., 712, American Ex. Forces, France.

"Dear Uncle:

Just a few words to let you know that all is well with your fighting nephew. I arrived in France at Bordeaux, May 12. After three days I was sent to Blair for assignment to duty. From there I went to Gievres. After a sojourn of three weeks there I came to a supply depot near the fighting zone. I was on duty there a week when I was sent to a "railhead" a few miles from the trenches for temporary duty—just to learn railroad work. After ten days there I was ordered to another part of France and put in charge of a railroad with two lieutenants, and 22 enlisted men as assistants. A railhead is a point as near the fighting lines (6 to 15 miles) as it is thought safe to bring trains of supplies. When I reached this place the division of troops had moved farther on and I found a telegram to unload and issue rations at a point 20 miles away. Enough rations were sent each day to supply the division. Of course we still had a few days sup-

plies at the first point. As you have read in the papers, a big battle began July 14th. I had one lieutenant and 12 clerks at the point near the front. When the fight began, 12-inch shells began landing near our supplies. Everybody left except our men, who stuck to the job—stayed out in the middle of a field. I went up the morning of the 15th and the artillery had died down but the shells were still coming over every few minutes but none hit within 200 yards of our supplies. Early in the morning a shell hit the engine that was pulling in our train and killed the engineer. The lieutenant had the train reconsigned and sent back to the other railhead. I now know the sound of 12-inch shells.

After things had quieted down, the division moved to another place where they were needed. So I was ordered to this railhead, about 100 miles from the former one. I had to start the place. Warehouses and roads are about complete and in 10 days things will be O. K. Here I am assisted by three lieutenants, 31 clerks and checkers, (enlisted men) and we have about 40 negroes under a fourth lieutenant who do the handling of supplies. Later we are to have 40 more laborers. Beside this I forgot to mention three large trucks and an automobile and four drivers, also a guard of nine men. Fourteen men and one lieutenant run a sales commissary and send out truck loads of supplies to sell men in front line trenches. Another lieutenant and four men take care of the clothing. We receive and unload and store 25 or 30 cars of supplies a day—rations, hay, oats, gasoline, etc.

The other day the hay failed to arrive so I got in the machine and went to another railhead 20 miles away and had enough hay shipped up for the day, promising to return the hay when I receive ours. We use about 6 or 8 cars of hay a day. The French cars are not as large as ours—about half or two thirds as large. This will give you a little idea of my work here. We start work at 7 or 7:30 and quit anywhere from 7 to 11 P. M. I am the commander of the railhead and the commanding General of the Division has no authority over me. I obey orders from the Quartermaster at the Base Depot where our supplies come from. A Colonel told me he wanted a car of—, but he didn't get it.

We are licking the Boche, the main thing. The Boche planes pass over or near us most every night with bombs. They usually drop them on towns several miles away. One night these were dropped about 1-2 miles from here.

I have been in towns where many buildings have been destroyed by bombs. Although I am now 7 or 8 miles from our lines I can now hear guns booming and anti-aircraft guns plugging away at Boche planes at a town still farther away. All in all, it is quite interesting over here. I have not learned much French as I am at out-of-the-way places where I have little opportunity and little time.

Have not heard from my folks in Letcher for some time. Hope all is well with them. How's the Wynn family? Write me all the news.

E. W. Huff."

Mrs. William Burton, has just received an exceedingly interesting letter from her brother, Horace Walker, who is now stationed at Ellington Fields, Houston Texas. He is in the aviation service and his letter is the best one we have read along this interesting branch of the service. We have asked her permission to allow us to publish it, as the writer is so well known and liked here and she

very kindly consented. It follows:

"My Dearest Sis:—

Your letter just received and was so glad to hear from you again.

We have been under quarantine for two weeks and cannot leave the field except when flying. I suppose most every place in the country is being visited by the "Flu" but I am not afraid of it. The worst part about it for us is staying here in the country without getting to see any outsiders. However, I haven't minded it as I have had some wonderful trips in the air. A few mornings ago I got up at 5:30 and after breakfast we started out and in a little while those fleecy clouds began to form. It was the most wonderful sight I have ever seen. We went up 6 or 7 thousand feet and began to ride the clouds. It is great fun to fly over them especially a great white one, just as you go over the top the wind hits your ship and you go at a terrific rate. You cannot imagine anything more beautiful than flying when the sun is shining brightly on the white clouds. You cannot see the earth and the clouds look like endless beds of cotton. I don't think you would be afraid in the air. There is very little sensation except when stunting, you don't feel like you are going up but more like the earth is leaving you. After you get up several thousand feet you can be going over a 100 miles per hour and can hardly realize you are moving.

Now what I have said about sensations applies to straight flying. There is nothing in the world that gives the thrills that aerobatics does. I will never as long as I live forget my first "tail spin". We were going along with several other ships about 6000 feet up when all at once my pilot dived off to the side and before I could say "seat" I was whirling around falling toward the earth like a sky rocket. After falling about 2000 feet we straightened out as gracefully as a bird and went happily on our way. There is practically no danger in "stunting" if you are up high enough.

I have a great pilot, one of the best here so I hear and I have all confidence in him. I have been running the ship a little but of course not by myself. The ships have two controls, one in each seat. The pilot did not have his hands on the controls while I was running it but could have taken it in a second if I had turned it upside down. You might think this dangerous but it is not. Some of the pilots get up and turn the darn thing loose and let it fall and can pick it up when they get ready. That is practically what a "tail spin" is. I have never been the least bit sick or dizzy and like flying very much. It is certainly fascinating and when you have confidence in the driver there is nothing to frighten you. I might give you an idea what things on the ground look like while flying at high altitude. A river for instance looks like a very small branch and you wouldn't believe it a river unless you actually knew it was. A town the size of Lancaster looks like a small settlement and a city the size of Houston doesn't look very large—you can easily see it all at once. Everything else in about the same proportion. I thought the above might be interesting to you, just to know how one feels in the air. In fact that is about all we have to write about here. When we are not flying this is the "deadest" place in the world. The life of a flyer is easy—if we don't fly in the morning we can sleep as late as we please and go to meals when we like. Had a big rain this afternoon, so no flying until Sunday anyway. With lots of love to all,  
Your brother, Horace.

Mrs. Jesse Hendren, of New York City, arrived in the city last Tuesday and is at the home of her parents, Mr. and Mrs. Taylor Raney, on Stanford Street.

Miss Sabra L. Estes, of Waco, Ky., was the week-end guest of her sister, Miss Elizabeth Estes and other relatives in the county. She returned to her home last Monday.

Mr. John Johnston, of Bell Jellico, was in the city for a few hours last Monday. This was John's first visit here for several years and his old friends gave him the glad hand.

His old friends in Lancaster will read with regret, the death of Mr. P. W. Spencer, formerly of this county, who died at the home of his son, Bert Spencer, in Louisville, yesterday.

Miss Christine Sanders, who is attending school in Oxford Ohio, is at home for several weeks. She suffered an attack of influenza, but is improving, her friends will be glad to learn.

Neat little cards have been received by friends here announcing the arrival of a handsome boy, at the home of Mr. and Mrs. Hubert Carter. Mrs. Carter before her marriage was Miss Agnes Miles, of the county.

Mrs. C. I. Morgan, entertained at her home on Richmond Street, on Monday afternoon, from two to five, a few of her friends. Among the out-of-town guests present were: Mrs. May James and Mr. Tom Berry, of Richmond, Mrs. William Harries, of Lexington, and Mrs. Ollie Stone and children of Cincinnati, Ohio.

### VERY ILL.

News from the bedside of Mr. Webb Kelley this morning report that he is exceedingly low and grave fears are entertained for his recovery. He developed pneumonia about ten days ago.

### CELEBRATES CHINA

### WEDDING.

Last Saturday, Oct. 12th, 1918, Mr. and Mrs. W. A. Beazley, on the Buckeye Road, celebrated their 20th wedding anniversary.

At high noon the guests were invited into the dining room. The table was a vision of beauty, decorated with sparkling cut-glass, and beautiful bouquets of single and double asters. Words are inadequate to describe the bounteous dinner that was served. Everything good, provided in the way of eats to tempt an appetite was enjoyed to the fullest, by those fortunate enough to be present. Numerous and elegant gifts of China were presented to the host and hostess.

After dinner pictures were taken of the entire crowd, in remembrance of the pleasant occasion.

At a late hour in the afternoon all reluctantly departed for their homes, after thanking Mr. and Mrs. Beazley for one of the most pleasant days ever spent.

Those present were, Mrs. Hayden Waddle and Miss Sadie Beazley of Somerset, Mrs. James Walker, Mrs. Hill, Mr. and Mrs. Bascow Brown, and little son, James Franklin, Mr. and Mrs. Homer Wray and baby, Elizabeth Rose, Mr. Smiley Walker and family, Misses Nora, Stella and Delia Walker, Mr. Adolph Beazley and wife, Mr. Steve Walker and family, Mr. and Mrs. Miley Walker and daughters, Misses Marie and Hazel, Mr. and Mrs. James Yantis and sons, George and Herschel.

## LANCASTER BUSINESS MAN SINGS PRAISES.

"I suffered for years with stomach trouble and gas continually. Doctors thought I had stomach ulcers or cancer. After last attack they advised going to Rochester, Minn., for an operation. A friend advised trying Mayr's Wonderful Remedy, which I did, and I cannot sing its praises too highly, as I can now eat anything and everything. It is a simple, harmless preparation that removes the catarrhal mucus from the intestinal tract and allays the inflammation which causes practically all stomach, liver and intestinal ailments, including appendicitis. One dose will convince or money refunded."

Overwork, worry, overeating and lack of exercise and sleep are responsible for much kidney trouble. If your back aches and the kidneys seem weak, rest up and use Doan's Kidney Pills.

Chris Hutchison, carpenter, Crab Orchard street, Lancaster, says: "My kidneys were in bad shape and I had a constant pain over my right kidney. As my work calls for a great deal of stooping over, my back ached severely. My kidneys were too frequent in action at times and then again sluggish. The kidney secretions contained sediment. Doan's Kidney Pills, from Stormes' Drug Store, soon rid me of the backaches and regulated the action of my kidneys. I am glad to recommend Doan's Kidney Pills, for I know they are a good kidney medicine".

### STOP CATARRH WITH VIN HEPATICA

Right now is when catarrh is most dangerous and most easily contracted. You may have it right now and not know it. You go out and get your feet wet, expose yourself to cold, and the first thing you know

you have it, and if it is not stopped at once, may quickly lead to deadly pneumonia and tuberculosis. No matter how slight your case is, even a slight dropping in the throat, you should start immediately to taking plenty of Vin Hepatica, the great vegetable prescription which acts with such soothing and healing effect upon the mucus membranes, cleansing and toning up the vital organs of the body and enabling them to perform their natural functions in throwing off catarrh and making you proof against other diseases so prevalent this time of year. Come in and get a bottle.

## FARMER WILL NOT FAIL U. S. IN ITS GREATEST TEST

SECRETARY OF AGRICULTURE IS  
SURE RURAL SECTIONS WILL  
BUY BONDS.

BY D. F. HOUSTON,  
Secretary of Agriculture.

DAVID F. HOUSTON

The Fourth Lib-  
erty Loan will not  
fail for lack of sup-  
port of American  
farmers.  
That is the an-  
swer I am giving  
to those who ask  
me what the re-  
sponse of the  
American farmer  
will be. I am mak-  
ing this confident  
assertion in the  
face of the fact  
that the American  
people are now being asked to make  
a colossal contribution to liberty—six  
billion dollars.

American farmers have demon-  
strated their patriotic support of the  
nation's great war loans. One of the  
most striking features of the Third  
Liberty Loan was the support given  
you by the farming and rural popula-  
tions. Not only did farmers purchase  
liberally of the bonds, but the rural  
communities as a rule were more  
prompt in completing their quotas  
than the larger cities.

More than twenty thousand com-  
munities in the United States sub-  
scribed or oversubscribed their  
quotas, many of them on the first day  
of the campaign.

The majority of these were not  
cities but country districts. Iowa, a  
typical agricultural state, was the first  
to subscribe its quota.

But we now have a greater effort to  
make. Our largest war loan has been  
launched. It will tax our determina-  
tion to defend our liberty and our re-  
public at all costs. Our armies in the  
field are fighting victoriously. The  
forces at home are now in an offen-  
sive that must not fail.

Let us buy liberally bonds that we  
may attain our objective, a righteous  
and lasting world peace.

## The Yanks Are Buying Bonds

The Yanks are buying bonds. It's not  
enough  
For them to live and die and suffer  
all  
The agony of living death. They  
know  
Just what their comrades die for  
when they fall.

They know its meaning to us here at  
home.

They know the menace of the Prus-  
sian lie  
To all the world and all the race to  
come.

They know just what they're fight-  
ing—yes, and why.

And, therefore, while they offer life,  
they cry.

"It's not enough. Not now. If we  
can aid

In other ways, we must. We know  
the need

Of guns as well as lives in our  
crusade.

"We like our pay, but we can let it go  
For such a thing as this. We'll do  
it, too.

And if the folks at home can't raise  
enough

We'll borrow some to bring those  
billions through."

Oh, yes, the Yanks are buying. We  
can rest

And know they'll make up what we  
don't provide.

If we can let them, then let's hope the  
dead

Knew not those whom they died for  
ere they died!

—Lucy Jeanne Price.

## 56 State Banks Are Members of Federal Reserve Bank System

The Federal Reserve Bank of Cleve-  
land and its system of member banks  
will one day soon represent a total of  
resources of one billion dollars.

Recent figures showed that in the  
Fourth District 56 state banks had  
been admitted to membership, and  
they have raised the total resources to  
\$502,278,000. Applications are pend-  
ing from numerous other institutions  
in the district and as the bankers  
learn the advantages of being member  
banks all institutions will undoubtedly  
make application for membership.

The Federal Reserve Bank system  
of the country is credited with being  
the most powerful agent in making  
possible the flotation of the three Lib-  
erty Loans.

### THE LILIES OF FRANCE

"France's lilies are tall and white,  
Brave as the dawn, calm as the night;  
And fragrant they sway above  
The quiet head of one I love.

"Unceasingly these fadeless flowers  
Hasten their bloom through the war-  
swept hours.  
And many a lad shall have their foam  
Washing with peace his new-found  
home.

"O France's lilies are tall with pride,  
Flooding the slopes of the western  
side.  
It comforts me they sway above  
The quiet head of one I love."

First Museum.  
The first museum was part of the  
Palace of Alexandria, where learned  
men were maintained at the public  
cost, just as eminent public servants  
were in the Prytaneum at Athens. Its  
foundation is attributed to Ptolemy  
Philadelphus about 280 B. C.

Do not allow the
